

# WEST VALLEY REGIONAL FIRE TRAINING

## TRAINING PLAN

Subject	
<b>Engine Company Operations: 2-Out Line</b>	
Instructors	
<b><u>A</u></b>	<b><u>B</u></b>
Logistics	
<u>Time Required</u> 2 Hrs	<u>Equipment Needed</u> 2 Engines Training Tower Smoke Machine Heat Source

### DESCRIPTION

#### Objectives:

1. First Due Engine arrives and performs, performs a size-up, and initiates Fire Attack (smoke showing from the second floor)
2. Second Due Engine arrives and is directed by Command to assist with Water Supply and pull a "Two-Out" Line

#### Description / Outline:

1. Discuss the definition of a "Two-Out Line" vs. "Attack Line"
2. Perform a hose evolution to initiate Fire Attack for smoke showing from the 2<sup>nd</sup> Floor:
  - First Due Engine arrives, performs a size-up and initiates Fire Attack.
  - Second Due Engine arrives and is directed by Command to assist with Supply and pull a "Two-Out Line"
  - First Due Engine considerations should include:
    - Water Supply
    - Initiating Fire Attack
    - Locating the seat of the fire
    - Requesting additional Fire Attack resources if necessary.
  - Second Due Engine considerations should include:
    - Establishing a water supply for the First Due
    - Establishing a "Two-Out Line"
    - Monitoring the progress of the Primary Attack Line
