

WEST SACRAMENTO FIRE DEPARTMENT

TRAINING PLAN

Subject		
High Rise Drill		*Night Drill
Instructors		
<u>A</u>	<u>B</u>	<u>C</u>
Logistics		
<u>Time Required</u> Evening / Night Drill Duration of Drill TBD	<u>Equipment Needed</u> 1 Engine Co. for Drill Assignment (TBD) 1 Engine Co. for Station Coverage (TBD)	

DESCRIPTION

Objectives:

1. Develop the resources and response requirements to fully support a 2-Alarm HR assignment.
2. To evaluate the changes to the Regional High Rise Response Policy and assess recommendations prior to the 2014 High Rise Drill:
 - Apparatus positioning and tandem-pumping evolutions
 - Fire Attack deployment and sustainability
 - Staging / RIC location and equipment caches
 - RAT deployment and the ability to adequately pressurize stairwells
 - OTIS – Elevator Control
3. Identify realistic expectations for the feasibility of completing these assignments:
 - Identify problematic Policies or procedures
 - Identify training deficiencies
 - Provide recommendations for developing solutions.

Description / Outline:

Prior to the drills, Crews should review the Regional HR SOG.

Units will be dispatched as a full assignment to a simulated fire in a High Rise Building:

1. Units will be assigned as part of a full 1st or 2nd Alarm Assignment
2. Units will arrive on scene and receive assignments according to the Regional Response Policy or at the direction of the Incident Commander:
 - Systems, Lobby, OTIS
 - Fire Attack
 - 2 – Out / Back-Up
 - Tandem Pumping
 - RAT / Evacuation Group
 - Staging
 - Level II RIC
3. At the completion of the exercise, crews will conduct a review to provide operational input.
